It is informed that Lok Samvaad is a microblogging platform jointly developed by NIC and NICS. It is based on open source tools & technologies and also supports local languages. It is integrated with Government applications including Sandes and NIC email, so message propagation can happen among these systems. Users can upload content, also called a "Post" and it has features comparable with other similar social media platforms such as "Like", "Report", "Comment" etc. The platform allows Government Departments to share important information related to their schemes and programmes, etc. among each other and also allows engagement with citizens, thereby promoting networking of ideas.
